Discover a world of opportunity

Oxford International run International College Dundee (ICD) in partnership with the University of Dundee.

Founded in 1991, Oxford International is an accredited, private education provider that operates vocational Career Colleges and English language schools across the UK and North America to create life-changing experiences for students worldwide.

Our courses help over 70,000+ students from over 100 countries achieve academic success every year. We have built strong relationships with education consultants around the world and pride ourselves on delivering the best programmes for students.

Visit us at
[oxfordinternational.com](https://www.oxfordinternational.com)

Meet your International College

At our International College, we wholeheartedly embrace students as they embark on their educational journey, creating a nurturing environment that becomes their second home. Our team of highly dedicated teachers is committed to providing unwavering support to every student right from their first day, empowering them to achieve the academic success they truly deserve.

Want to see for yourself?
[oxfordinternational.com/
universities/dundee](https://oxfordinternational.com/universities/dundee)

Welcome from our College Director

A very warm welcome to International College Dundee (ICD). Here, you will begin one of the most exciting years of your life! There is no better place than Dundee to make your home away from home.

Situated beside the majestic River Tay, Dundee is Scotland's sunniest city. It also has the highest student ratios per head of population anywhere in the UK so there is an exciting and diverse range of night-life, leisure activities and culture.

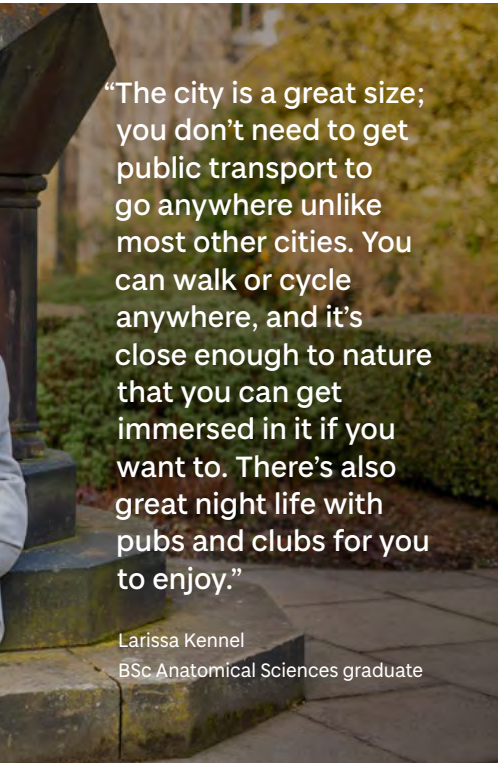

Welcome from the College Director

Scan the QR code to watch a welcome video from our College Director, Dr. Corinne Wales.

Scan to watch

“The city is a great size; you don’t need to get public transport to go anywhere unlike most other cities. You can walk or cycle anywhere, and it’s close enough to nature that you can get immersed in it if you want to. There’s also great night life with pubs and clubs for you to enjoy.”

Larissa Kennel
BSc Anatomical Sciences graduate

If you enjoy the outdoors, there are miles of beautiful coastline, beaches, and stunning countryside located just a few miles from our College’s doors.

From your first day at ICD, you will also be welcomed to the University of Dundee by your fellow students. Dundee University Students’ Association (DUSA) provides the highest level of social, recreational, advice, and support services to all student members.

I encourage you to try something new while you’re here or join a student society representing something which you may already love to do. Whether your passion is sport or politics or music, societies are full of people sharing the same interests. You will make new friends, gain new skills and leave the university with much more than a degree.

Here at ICD, we are a family – one that is created by all our students and our staff. Our dedicated team of teachers will ensure that each student is supported to achieve the academic success they deserve. International College students know they are part of the College family. They tell me that ‘we are like a home far away but brought close’ (Elizabeth, Nigeria). That ‘students are very enthusiastic about learning and lecturers deliver in a very friendly and upbeat fashion’ (Dina, Egypt) and that you will be ‘provided with all of the services and assistance you need’ (Bezzy, Kenya).

Supporting you is central to our mission at International College Dundee. We are here to guide you as you become the best version of yourself.

I hope to see you soon.

Dr. Corinne Wales,
College Director

Studying at International College Dundee

International College Dundee (ICD) offers you an alternative way to begin your undergraduate or postgraduate studies at the University of Dundee.

At ICD, you will learn core subjects while being supported in the development of academic English and university level study skills. With experienced teachers and small class sizes, you will receive first-class teaching as well as the individual guidance needed to adjust to your new life as a UK university student.

Your pathway to university

We offer two levels of study at the International College: the International Incorporated Bachelors and the International Incorporated Master's. The first stage is delivered at the International College, and once completed, you will continue your degree course directly with the University of Dundee.

Choose your level and degree subject

Upon enrolment to your chosen pathway, you'll also pick your degree of choice. This choice will dictate your IIB or IIM subject route and modules during your studies at ICD.

International Incorporated Bachelors (IIB)

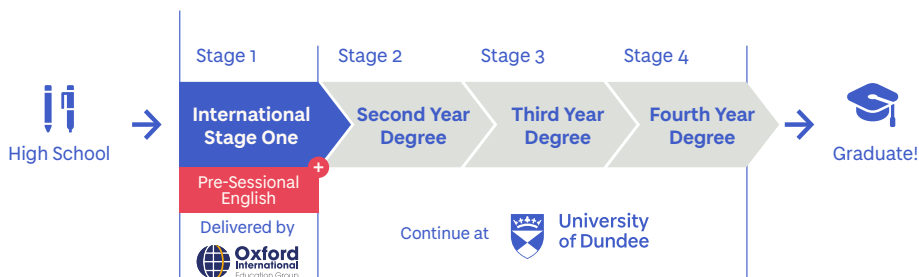

International Stage One (IS1)

The IS1 offers you a different start to your undergraduate study at the university, strengthening English abilities and introducing core concepts and key knowledge required in your chosen subject area. See page 38, for more information.

At ICD you will take one of the following routes, depending on your chosen undergraduate degree

IS1 routes:

- Art and Design
- Business and Economics
- Computing
- Engineering
- Life and Biomedical Sciences
- Nursing
- Law, Psychology and Social Studies

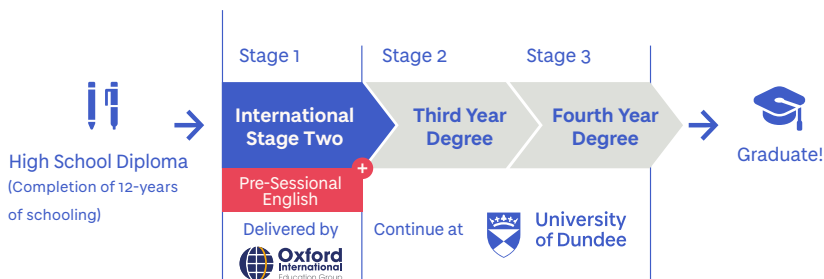

International Stage Two (IS2)

The IS2 is the equivalent to the second year of a four-year Scottish undergraduate degree. See page 48, for more information.

At ICD you will take one of the following routes, depending on your chosen undergraduate degree.

IS2 routes:

- Business and Economics
- Applied Finance
- Mechanical Engineering
- Computing

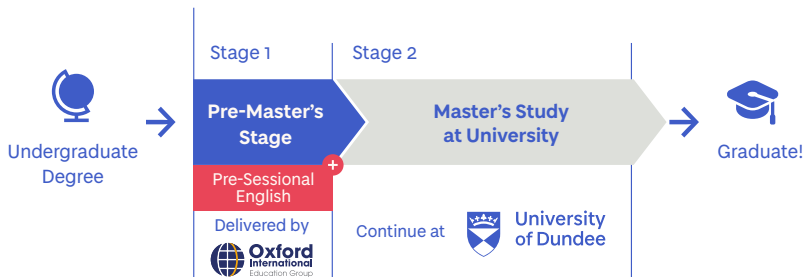

International Incorporated Master's (IIM)

At postgraduate level, the International Incorporated Master's provides you with the advanced skills you need to continue on to your chosen postgraduate degree. See page 56, for more information.

At ICD you will take one of the following routes, depending on your chosen postgraduate degree.

IIM routes:

- Business
- Design
- Energy and Sustainability
- Engineering
- Psychology and Social Sciences
- Law
- Nursing and Health
- Education

Oxford International
Digital Institute

Online Pre-Sessional English Course

For the students who do not meet the minimum English Language requirements, we have partnered with **Oxford International Digital Institute** to offer an additional Online Pre-Sessional English course. Depending on your current English level, you'll do one or two terms.

For detailed information please visit oidigitalinstitute.com/courses/higher-education/pre-sessional-english/

Welcome to your university

The University of Dundee's self-contained campus offers students a home away from home in the heart of a truly diverse and inclusive city.

You don't need to worry about cars or taxis when the accommodation, library, teaching areas, students' union, and gym are all right next to each other.

There are green spaces, study spaces, and places to chill, right on your doorstep.

By living on campus you'll be in the heart of the city, close enough to be part of the enthusiasm and excitement that surrounds Dundee.

College of Life Sciences

Known for its friendly community, Dundee is one of the safest places to study in the UK. It truly feels like the city has been created just for you, which is why it's no surprise that it is recognised as the safest city in the UK (Complete University Guide 2022).

University of Dundee

Our strong identity, cultural confidence and openness make Dundee an exciting place to be. It's a great place to live in, being a lively student-centred community with plenty of things to do.

By living on campus you'll be in the heart of the city, and experience the best of this cosmopolitan student city. You'll be just a short walk from cultural attractions, cafes, restaurants, shops, and bars. The train and bus stations are also within walking distance, handy for those days you want to explore the best that Scotland has

to offer. Our campuses at Ninewells Teaching Hospital and Kirkcaldy are also easily accessible by bus and train.

A fantastic student experience drives everything we do at the University of Dundee. If you are planning to study at a top European institution - one with outstanding teaching, a brilliant student life and fantastic support - Dundee is the perfect choice.

“The people at ICD are the most helpful. It's a whole new and diverse world - to travel, meet new friends and be introduced to new and exciting ventures in great company. In moments of turbulence, you will have wonderful people as anchors, such as your academic advisors. You will be provided with all of the services and assistance you need.”

Bezzy Gitonga

Current ISI Business (International Business with French) student.

Research with impact

Over the past 50 years we have pioneered innovations as diverse as flat screen technology seen on every mobile phone or tablet, to minimally invasive or 'keyhole' surgery. That spirit of discovery and innovation is ongoing, and the impact of our research is felt around the world.

We undertake vital research with a focus on impact. We work with partners - other universities, research institutes, major charities, and leading companies around the world to deliver on our ambition.

We have a long and successful track record of discovery, helping to drive innovation and solve some of the

world's most pressing problems.

Through our innovative Drug Discovery Unit - the only fully operational, fully integrated drug discovery group working across multiple diseases based within a UK university - we have made discoveries such as a compound with the potential to treat malaria in a single dose.

The University of Dundee was recognised as a “global centre of excellence for Life Sciences and Medicine” in the QS World University Rankings by subject 2022.

Our School of Medicine is one of the leading centres of medical education in the UK, while continuously producing research breakthroughs which improve our understanding, treatment and prevention of diseases such as cancer, diabetes and cardiovascular disease. We are now doing the same for Parkinson's disease and other neurodegenerative conditions.

We are a partner of the CMS Collaboration at CERN, where they discovered the Higgs-Boson particle. Dundee is the first Scottish university to join the collaboration, and one of only a handful in the UK.

Our involvement is based around our expertise in materials engineering, mechanical engineering, civil engineering, and computing, including the development of a new laser

technique that can help raise the efficiency of the Large Hadron Collider at CERN.

Our forensic scientists produce new technologies and techniques that are helping save lives and support the justice system, such as a new form of smoke alarm that is massively more efficient at waking up children than the existing model, an innovation that can save the lives of thousands.

We are also a leading centre for the development of assistive technologies, bringing the benefits of the digital age to those who suffer from the most severe communication disabilities.

Our core purpose is to transform lives locally and globally. That applies to the people around the world who benefit every day from our research.

uod.ac.uk/research

Learning facilities

Top-class students need top-class facilities. You'll have access to plenty of resources to make sure nothing holds you back.

The library is a vital part of any university campus, and Dundee's is no exception. Dundee's main library gives you lovely long opening hours (open until 2:30am during term time and 24 hours a day during exams), and a cafe to keep you going through those study sessions. Recently refurbished and upgraded, it offers everything you want from a library, plus relaxation areas and group study rooms with the latest technology.

As well as our library on campus, you can take advantage of our libraries at Kirkcaldy, Ninewells Hospital, and Duncan of Jordanstone College of Art and Design. You'll also be able

to spend your study breaks in CreateSpace, the library's new spot for unwinding with a twist. There are sewing machines, 3D printers, badge makers, and even Lego.

Digital education services

You'll have access to a range of digital services that enhance your student experience and support diverse and flexible learning. These services include our virtual learning environment and an extensive range of digital assessment tools, which ensure you can continue to learn wherever and whenever you choose.

Hybrid teaching spaces

We have also made significant investments to develop flexible teaching. Our hybrid teaching spaces offer new ways for you to engage with your learning across different activities. These include specialist facilities that allow you to virtually engage with lab and studio work. This means that when you are not on campus, you can view your classes and interact with lecturers in real-time.

State of the art IT

Whether on or off-campus, your learning will be supported with a range of technologies, including:

- Superfast wifi everywhere across all campuses, including an additional wifi network in accommodation so you can use your game consoles and streaming devices
- Full Microsoft 365 account, including email and Teams, plus free to download Microsoft Office applications for your devices
- 2,000+ available PCs on campus. These can be found in library study zones, IT suites, and specialist labs in departments
- Discounts on technology and software, including from Apple, Dell, Microsoft and others
- Expert IT support available in-person and online seven days a week from 10am-10pm
- Extra support for students with a disability, including assistive software, equipment, and training to ensure IT is accessible and easy to use.

Find out more about our library
uod.ac.uk/library

Your student experience

The majority of Dundee's students live on or near the university campus, conveniently situated next to the city centre and there's always something to do. There's no shortage of ways to make friends and settle in to your new life. Alongside our sports clubs there are world leading student societies for you to join.

Want to see for yourself?
[oxfordinternational.com/
universities/dundee](https://oxfordinternational.com/universities/dundee)

Exceptional quality of life

While offering the best of urban living, the city is still friendly, compact, easy to navigate and well connected to other areas so you can explore. Finding the lifestyle you want is easy, and Dundee's relatively small size and close-knit community make it a safe and inexpensive place to live.

Stay healthy

If you're an athlete, a club-level competitor, or you just like to keep fit, the Institute of Sport and Exercise (ISE) is the place to go. There's plenty to choose from including a state-of-the-art gym, a 25-metre swimming pool, tennis courts, two sports halls and 33 acres of playing fields.

Clubs and societies

With over 200 affiliated societies there's something for everyone. There are political societies, groups raising valuable funds for

charities, societies for people interested in different countries or cultures, music, drama, religious-affiliated societies, sports clubs, and academic groups. There are also plenty of societies for those who just want to have a good time with like-minded people – such as the Comedy Club, the Sci-Fi Society and the BBQ, Baking and Coffee Society.

Study spaces

Students often have a wide variety of study habits – so to make life easier for everyone, our recently refurbished library is open until 2:30am during term and 24 hours a day during exam season. Here you can find everything you need, from relaxation areas and creative spaces to group study rooms equipped with the latest technology.

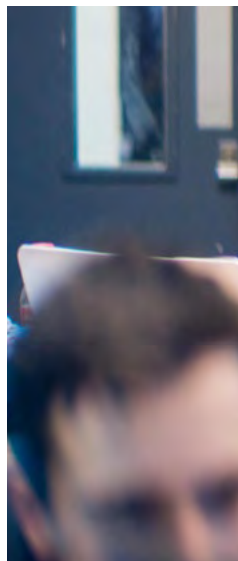

Safe and secure

Our hall wardens and security officers provide 24-hour security, so you can have peace of mind and feel safe in your surroundings.

Your opportunities

We offer a full careers service, volunteering advice, careers fairs, and entrepreneurship training so you can pack your CV full of the attractive things employers are looking for and land you that perfect job. We offer career advice for life to all of our graduates to make sure you get the support you need at every stage of your career. uod.ac.uk/careers

Students can also give themselves a competitive edge and add extra value to their degree by taking part in relevant work experience and volunteering. To help you make informed choices about this – and all other aspects of your future employment. Together with our careers fairs and entrepreneurship training, we help you choose your future direction and give you the best chance to pursue your career goals.

Best Scottish University

→ Dundee ranked 1st for best Scottish university

StudentCrowd 2022

Work Experience

Whether you're looking for part-time work, volunteering opportunities or work experience related to your degree, we advertise all suitable opportunities on the JobShop, accessed via the CareersPortal.

uod.ac.uk/careersportal

Please be aware that you need to check what permission you have to work in the UK before undertaking any form of work experience. The International Advice Service can provide further advice on this.

Email internationalssupport@dundee.ac.uk

Careers Service

Our Careers Service offers advice and guidance to all students – whether you already know what you want to do after university, or need to make sense of the available options. Our team is friendly and supportive, with a wealth of knowledge and resources that can help you throughout your time at university and beyond.

Feel free to drop into one of our Quick Query sessions (held every weekday during term-time) to ask any questions or get feedback on a CV or application. You can also use our website to submit career-related queries online, book appointments with a Careers Adviser, or find out about part-time work, placements, internships and graduate jobs.

Centre of Entrepreneurship

'Centre of Entrepreneurship' is a dedicated business resource for students, staff and recent graduates. It enables university members to explore setting up their own business while developing entrepreneurial skills and commercial awareness – thereby helping create the next generation of entrepreneurs.

Run by students, overseen by university staff and supported by our experienced business patrons, the Centre puts on a packed programme of 70 free events a year – ranging from competitions and lectures to workshops, careers fairs, and informative talks from industry experts and entrepreneurs.

uod.ac.uk/entrepreneurship

Accommodation

All our student accommodation are self-catering single bedrooms, each with private en-suite shower and private en-suite bathroom.

Staying in university accommodation is a big part of your student experience. Our accommodation is a home-from-home right at the heart of the city campus. Living and working on campus enables you to throw yourself straight into student life, experience the very best that the campus and city have to offer and meet the people who could end up being your closest friends for the rest of your life. The accommodation is self-catering with 1600 single bedrooms in over eight locations, complete with an en-suite bathroom - no shared bathrooms for our students!

All rooms are:

- Single occupancy
- En suite
- Equipped with super fast wifi

Take a virtual tour
uod.ac.uk/accommodation-tour

“I think the campus is great. The first year I lived in a house (on campus) and it was a very good experience because I met so many people from all over the world.”

Ana from Romania

Enquiry Centre

We know that studying at Dundee may be your first time away from home, and to make this transition easier we run an Enquiry Centre in the centre of the campus for any students who need it. The Centre and its staff are here to help you adjust to life at the university and find your way around. They also offer support in a variety of areas including:

- Accommodation ID cards
- Opening a bank account
- International support
- Visas and finance issues
- Well-being
- Registering with a doctor
- Study support
- Careers advice

Discover your city

Dundee is a waterfront city located on the banks of the River Tay and surrounded by some of Scotland's finest countryside. Explore further afield with easy accessibility by road, rail or air to other cities and experience the best of what Scotland has to offer.

Meeting lifelong friends and trying new experiences plays a massive part in student life. Grow your social circle at the University of Dundee with societies, clubs, sports and many events that will enhance your student experience.

Dundee's vibrant night life, pubs, clubs, cocktail bars and restaurants will cater for your tastes whether it's a wild night out or a hike with friends exploring beautiful landscape.

Where we are

Being at the heart of Scotland's road and rail network puts spectacular scenery, skiing, championship golf, mountain climbing, and sailing within easy reach.

Dundee sits on the banks of the River Tay in an idyllic south-facing location on the east coast of Scotland. It is home to 148,000 people, and another 300,000 people live within a 30 minute drive. Its great central location means that 90% of Scotland is within only a 90 minute drive.

Scotland's four main international airports all operate both national airlines such as British Airways, and low cost airlines. This makes it easy to get to all the major centres of the UK and Europe. Edinburgh, London, and Amsterdam are only an hour or two away.

Bus Station

Just a 20 minute walk from campus you can catch a bus to explore the areas surrounding Dundee, such as St. Andrews and Perth. You can also venture further afield by hopping on a bus to one of Scotland's airports.

Train Station

Connecting the city to the East Coast Mainline, the station is a five minute walk from campus with regular trains to Scottish towns and cities, as well as London, Newcastle, York, and other cities in the UK.

Dundonians are “among the friendliest, most welcoming and entertaining people you’ll meet”.

Lonely Planet 2018

Train from Dundee to

Edinburgh	1 hour
Glasgow	1 hour 25 minutes
Manchester Airport	5 hours 5 minutes

Belfast	1 hour 10 minutes
London	1 hour 10 minutes
Dublin	1 hour 10 minutes
Amsterdam	1 hour 30 minutes
Paris	1 hour 50 minutes
New York	7 hours 35 minutes
Dubai	7 hours 30 minutes

Dundee's best bits

It's easy to fill your free time in Dundee. After you've been to class, joined a society or two, nipped to the shops, and studied for a while, there are many amazing places to visit.

Sunniest

→ Scottish city, with an average of 1,523 hours of sunshine per year (Visit Scotland 2023)

The Victoria and Albert (V&A) Museum

A visit to the waterfront museum will leave you in awe of all things design. There's also a cafe, restaurant, and a gift shop to pick up something extra special.

The Law - Volcanic Sill

Some cycle, some jog, some even run, but most people just walk to the top of the hill. You'll be rewarded with a beautiful view of the city, often favoured at sunrise.

Broughty Ferry

You can catch a bus or cycle along the waterfront to reach this historic seaside town. It's as well known for its ice cream as it is for its castle.

The DCA

A local institution with a cinema, restaurant, gallery, and print studio in one beautiful space. It hosts an annual film festival and screens blockbusters alongside the classics.

The Dundee Rep

Home to Scotland's only full-time company of actors who produce their own shows. Regular visitors also include solo artists, comedians, operatic societies, and ballet troupes.

Other museums

Learn about Dundee's industrial history at the Verdant Works, or enjoy some of Scotland's best artwork at the McManus. The beautifully Gothic building also traces the history of Dundee with the help of hundreds of artefacts.

Green spaces

There are plenty of parks where you can make the most of the seasons and enjoy the colours. Magdalen Green and Balgay Park are the favourites, popular with BBQers and joggers alike.

University of Dundee Botanic Garden

We're probably biased, but this is one of the best green spaces in Dundee. Perfect for nature lovers and free for all of our students, it really is a little oasis in the city.

The Waterfront

The Dundee City Waterfront is undergoing a £1 billion redevelopment. There are new features popping up every few weeks for you to explore, including an Urban Beach, water fountains and a 22-tonne whale sculpture.

Slessor Gardens

Also next to the Waterfront, the gardens host a number of events each year. It is regularly transformed into an outdoor venue for bands and artists, and was home to last year's Pride celebration.

Check out Dundee's student blogs
for first-hand insights
blog.dundee.ac.uk/studentblog

Dundee benefits from a great central geographic location, with 90% of Scotland's cities within 90 minutes drive

Discover Scotland

Dundee's spaces truly stand out. There are hills and parks, stunning views and cobbled streets, from the centre to the outskirts. Sometimes taking a break in nature is the best way to re-energise, so when you've finished exploring Dundee, the rest of Scotland and its coastline, glens, and mountains are right on your doorstep.

There are clubs and societies that like to make the most of the great Scottish countryside, such as the surfing club's beach lessons or the Rucksack Club's weekly hill climbing and Munro bagging (conquering one of Scotland's 282 mountains).

Many students adventure out on their own or with friends, exploring the historic sites and wilderness by car, bus, train, and even bike. Dundee's central location makes this very easy with Edinburgh, Glasgow and Aberdeen only a short distance by car or public transport.

55	Computing

International Incorporated Bachelors

International Stage One (IS1)*

The IS1 is the first year of a four year International Incorporated Bachelors. The first year is taught at the International College Dundee (ICD) and its designed to strengthen your English language abilities and introduce core concepts and knowledge required at university study level. Once you have successfully completed your studies at ICD you will continue the remaining stages of your degree directly with the University of Dundee

Routes

You can choose to study one of the following International Stage One (IS1) routes:

- Art and Design
- Business and Economics
- Computing
- Engineering
- Life and Biomedical Sciences
- Nursing
- Law, Psychology and Social Studies

Core modules

As well as modules unique to your specific route, you will also study several core modules common to each course. The core modules are:

- English for Academic Purposes (EAP)
- Mathematics and Digital Literacy
- Government and Society

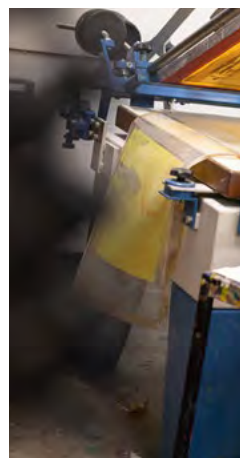

Two terms only:

- Step Up to Your Degree
- Comparative Culture and Society

For more detailed information on your modules please visit oxfordinternational.com

Continuing your degree at the University of Dundee

You will choose your degree before you start your IIB. Once you have successfully completed your IS1, you will continue directly on to the second year of a four year degree. In limited cases you will continue on to the first year of a three year degree.

Entry Requirements

To enrol on to the IS1 pathway you must meet the following entry requirements:

English language requirements

For direct entry to the IS1 pathway the minimum overall IELTS score required is:

- **Two terms**
IELTS 6.0 with no less than 5.5
(6.0 in Writing)
- **Three terms**
IELTS 5.5 with no less than 5.5 in each component

Qualification requirements

We accept a range of qualifications. To check country specific qualifications required to enrol on to the IS1 pathway please visit [oxfordinternational.com/admissions/country-entry-requirements](https://www.oxfordinternational.com/admissions/country-entry-requirements)

Online Pre-Sessional English Course

Pre-Sessional English options delivered online are also available for applicants who don't meet the minimum English language requirements.

For detailed information please visit [oidigitalinstitute.com/courses/higher-education/pre-sessional-english/](https://www.oidigitalinstitute.com/courses/higher-education/pre-sessional-english/)

International Stage One

Art and Design

The Art and Design pathway at International College Dundee is a fantastic way to start your creative degree. It is a pathway to a number of undergraduate degrees at Dundee.

As an Art and Design student at ICD, you will study modules designed to both increase your awareness of key concepts in art and design theory, and encourage you to expand your creative skills through studio practice. You will also study the foundations of psychology, expanding your awareness of human behaviour to inform your creative work in the future.

Core modules

With the Art and Design pathway, you will undertake the following subject-specific modules:

- Cultural Context
- Film, Media and Popular Culture
- Introduction to Psychology
- Studio Practice
- Digital Media

For more detailed information on your modules please visit [oxfordinternational.com](https://www.oxfordinternational.com)

International Stage One Engineering

Engineering is a broad and exciting field. The IS1 Engineering course covers major mathematical and scientific principles and gives you an excellent foundation for further study; the heavy focus on maths, physics and programming also ensures that you'll deepen your understanding during this first additional year of your undergraduate degree.

After completing this course, you will continue your studies at the School of Science and Engineering, where you can kick-start your Chartered Engineering or scientific career by obtaining a BEng or BSc that fulfils the accreditation requirements of the Chartered Institute for IT or the British Computer Society (Chartered IT Professional (CITP) or Chartered Engineering (CEng) or Chartered Scientist (CSci).

Core modules

With the Engineering pathway, you will undertake the following subject-specific modules:

- Data Analysis
- Core Mathematics
- Mechanics
- Electricity, Electronics and Fields

TOP 30

International Stage One

Life and Biomedical Sciences

This is a broad-based preparatory stage for a number of exciting and challenging undergraduate degrees at Dundee, such as Pharmacology or Molecular Biology. Once you have successfully completed this course, you will continue your chosen degree in the School of Life Sciences. For second successive REF, Dundee is the top university in the UK for Biological Sciences according to the Research Excellence Framework (REF 2021). Leading scientists are involved both in the planning and teaching of courses at Dundee, and students benefit from up-to-date and well-equipped facilities for practical work.

Core modules

With the Life and Biomedical Sciences pathway, you will undertake the following subject-specific modules:

- Data Analysis
- Cell Biology
- Anatomy and Physiology
- Further Studies in Biology
- Chemistry 1
- Chemistry 2
- Laboratory Skills

For more detailed information on your modules please visit oxfordinternational.com

CONTINUATION DEGREES:

BSc (Hons)

- Anatomical Sciences

International Stage One

Nursing

Nursing focusses on providing care and support to individuals and is considered a highly rewarding career within the health care sector. The IS1 in Nursing will enhance your English language capabilities and develop your academic and practical skills to help you succeed on to your chosen Nursing degree.

Nursing courses at the university are designed in conjunction with partnership organisations to ensure your academic and professional development meet the needs of any contemporary nursing practice environment.

Completion of the degree gives you both an academic and professional qualification that leads to you becoming a registered nurse with the Nursing and Midwifery Council.

CONTINUATION DEGREES:

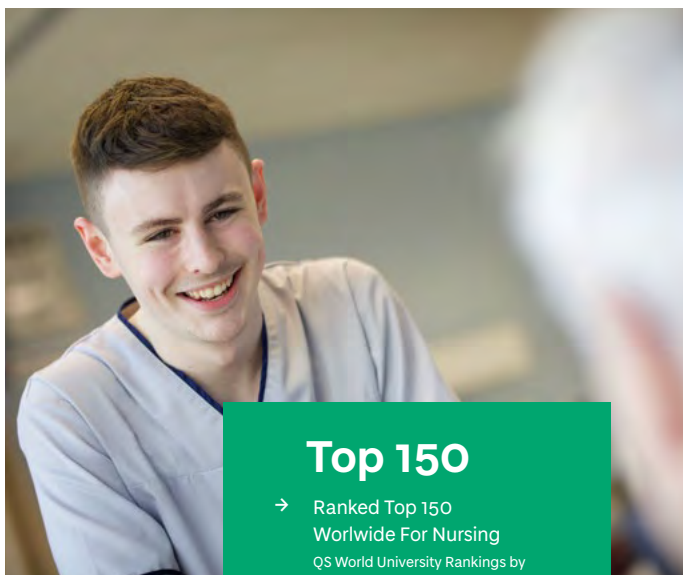

BSc¹

Adult Nursing²

Mental Health Nursing²

¹ Students who obtain a B grade average in their IS1 Nursing pathway at ICD will be given the option to transfer to the BSc (Hons) programme.

² These courses are 3 year, rather than 4 year courses. This means continuation from ICD to UoD will be into Year 1 (not year 2).

- Data Analysis
- Communication in Healthcare
- Nursing and Healthcare
- Anatomy and Physiology (Nursing)

For more detailed information on your modules please visit oxfordinternational.com

“The students here are a close-knit group, driven together by sharing the same passion for nursing and helping others. The nursing lecturers have an extensive background, working in different aspects of healthcare. This not only provides a varied course that the university offers, but also the chance to speak to someone if you have a particular interest in where you would like to work.”

Gary Jordan
Adult Nursing graduate 2018.

International Stage One

Law, Psychology and Social Studies

This course provides access to a range of exciting and challenging undergraduate degrees at Dundee, such as Psychology and Law.

Students are offered a modern, forward-looking approach to learning and a rigorous preparation for the professional world, whether in the legal sphere or elsewhere.

Upon successful completion, this route will enable you to continue your Social Sciences degree directly with the University of Dundee.

Core modules

With the Law, Psychology and Social Studies pathway, you will undertake the following subject-specific modules:

- Introduction to Psychology
- Film, Media and Popular Culture
- Law, Ethics and the Constitution
- Introduction to International Relations
- Data Analysis
- Applied Sociology
- International Business Management

International Incorporated Bachelors (IIB)

International Stage Two (IS2)*

The IS2 is the equivalent to second year level study of a typical four-year Scottish¹ undergraduate degree or first year level study of a three-year degree which is more common in the rest of the UK. The first stage is taught at International College Dundee (ICD) and provides an intensive combination of more advanced subject specific content with Mathematics and English academic literacy skills. Once you have successfully completed your studies at ICD you will continue the remaining stages of your degree course directly with the University of Dundee

Routes

You can choose to study one of the following pathways:

- Business and Economics¹
- Applied Finance
- Mechanical Engineering
- Computing

¹ The IS2 Business and Economics route is the equivalent to a 3-year degree.

Continuing your degree at the University of Dundee

You will choose your degree before you start your IIB. Once you have successfully completed your IS2, you will continue on to the second year of a degree that will last 3 or 4 years in total.

Entry Requirements

To enrol on to the IS2 pathway you must meet the following entry requirements:

English language requirements

For direct entry to the IS2 pathway the minimum overall IELTS score required is:

- **IELTS 5.5 with no less than 5.5 in each component**

Qualification requirements

We accept a range of qualifications. To check country specific qualifications required to enrol on to the IS2 pathway please visit oxfordinternational.com/admissions/country-entry-requirements

Online Pre-Sessional English Course

Pre-Sessional English options delivered online are also available for applicants who don't meet the minimum English language requirements.

For detailed information please visit oidigitalinstitute.com/courses/higher-education/pre-sessional-english/

International Stage Two

Business and Economics

The IS2 in Business and Economics is the equivalent to a 3-year degree and has been designed with your future employability in mind. The 'in practice' component incorporates professional focused content plus an internship facilitated by the School of Business to give you every opportunity to be a career-ready graduate for the world of tomorrow.

Once you have completed your course, you will continue on to the second year of your chosen degree with the University of Dundee School of Business.

Core modules

With the Business and Economics pathway, you will undertake the following subject-specific modules:

- Business Management
- Academic Literacies
- Mathematics for Business and Digital Literacy
- Business Analytics
- International Business: Theory into Practice
- Macroeconomics and Applied Policy
- Microeconomics 2

For more detailed information on your modules please visit [oxfordinternational.com](https://www.oxfordinternational.com)

Graduate Outcomes Survey HESA June 2020

International Stage Two

Applied Finance

Studying finance can help you access many career as it covers management of money, business practice, analysis and planning. Our IS2 in Applied Finance is the first stage of your integrated BSc (Hons) Applied Finance in Practice degree course. You will continue your degree course with recognised bodies such as The Association of Chartered Certified Accountants (ACCA) and The Association of International Accountants (AIA).

- International Business: Theory into Practice
- Macroeconomics and Applied Policy
- Microeconomics 2

For more detailed information on your modules please visit oxfordinternational.com

CONTINUATION DEGREES:

BSc (Hons)

[Applied Finance in Practice](#)

Core modules

With the Applied Finance pathway, you will undertake the following subject-specific modules:

- Introduction to Financial Accounting
- Financial Management 2
- Academic Literacies
- Mathematics for Business and Digital Literacy
- Business Analytics

International Stage Two

Mechanical Engineering

The IS2 in Mechanical Engineering is the first stage of your integrated BEng (Honours) in Mechanical Engineering or BEng (Hons) in Mechanical Engineering with Renewables degree course. You will be introduced to a wide range of engineering principles including solid and fluid mechanics, thermodynamics, engineering design software and engineering control systems. You will also complete an engineering project.

Upon successful completion of the IS2 programme you will continue your degree studies with the School of Science and Engineering.

CONTINUATION DEGREES:

BEng (Hons)

Mechanical Engineering

Mechanical Engineering
with Renewables

Core modules

With the Mechanical Engineering pathway, you will undertake the following subject-specific modules:

- Academic Literacies
- Mathematics for Engineers
- Solid Mechanics
- Fluid Mechanics
- Thermodynamics
- Electrical and Electronic Principles
- Mechanics of Machines and Systems
- Engineering Control Systems
- Engineering Design Software
- Engineering Project

International Stage Two Computing

Computers affect every aspect of our lives. Technology is rapidly evolving, and the need for computer scientists to work across almost every industry continues to grow. Our IS2 Computing is the first stage in your integrated BSc (Hons) Computer Science degree course. You will be introduced to a wide range of computing principles including software engineering, multi-paradigm programming, advanced algorithms and fundamentals of computer systems.

Upon successful completion of the IS2 programme you will continue your degree studies with the School of Science and Engineering in Computer Science.

CONTINUATION DEGREES:

BSc (Hons)

Computer Science

Core modules

With the Computing pathway, you will undertake the following subject-specific modules:

- Academic Literacies
- Introduction to Data Structure and Algorithms
- Software Engineering
- Advanced Algorithms and Complexity
- Fundamentals of Computer Systems 2A
- Mathematics and Web Authoring
- Fundamentals of Computer Systems 2B
- Introduction to Users and Interfaces
- Introduction to Multi-Paradigm Programming

63	Design
64	Energy and Sustainability
65	Engineering
66	Psychology and Social Studies
67	Law
68	Nursing and Health
69	Education

International Incorporated Master's (IIM)

A postgraduate qualification can give your career a boost and help you stand out to potential employers. It also helps if you are looking to change career and need further training to enhance your job prospects within a new field.

The International Incorporated Master's (IIM) is designed for those students who do not qualify for direct on to entry to a postgraduate degree at the University of Dundee. This could be because of the grades achieved in your undergraduate degree; your current qualifications are not equivalent to a UK undergraduate degree or you need to improve your academic and English language skills.

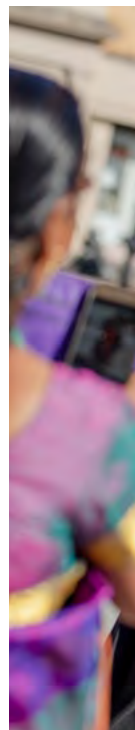

Key features of the IIM:

- Receive specialist support from tutors experienced in teaching international students
- Small group tuition
- Continuous formative assessment with detailed and supportive feedback
- One (3 months) or two terms (6 months) available, please refer back to each pathway for more information.

What you can study

- You can choose to study one of the following routes:
- Business
 - Design
 - Energy and Sustainability
 - Engineering
 - Psychology and Social Studies
 - Law
 - Nursing and Health
 - Education

“When I first arrived in Scotland, I could not communicate well in English. Now I am in my second year, and I’m confident that I’ll succeed with a postgraduate degree from the University of Dundee! This postgraduate degree is the first step; afterwards, I want to do a Ph.D. When I studied at International College Dundee (ICD) I was inspired by my business tutors; they helped me to believe in myself and have the confidence to study a Ph.D!”

Komet, IIM Business student from Thailand, plans to study a Ph.D in Tourism and Marketing.

Entry Requirements

To enrol on to the IIM pathway you must meet the following entry requirements:

English language requirements

For direct entry to the IIM pathway the minimum overall IELTS score required is:

- **One term**
IELTS 6.0 with no less than 5.5 in each component
- **Two terms**
IELTS 5.5 with no less than 5.5 in each component.

Qualification requirements

We accept a range of qualifications. To check country specific qualifications required to enrol on to the IIM pathway please visit oxfordinternational.com/admissions/country-entry-requirements

Online Pre-Sessional English Course

Pre-Sessional English options delivered online are also available for applicants who don't meet the minimum English language requirements.

For detailed information please visit oidigitalinstitute.com/courses/higher-education/pre-sessional-english/

International Incorporated Master's (IIM)

Overview

The Pre-Master's Stage is the first stage of your IIM and is taught at the International College Dundee (ICD). Depending on which route you choose, you will study subject-specific modules as well as a range of core modules carefully selected to support you in progressing to your postgraduate degree.

During stage one, you will develop the advanced skills you need to complete your postgraduate study at the University of Dundee and succeed in your future career.

Depending on your academic qualifications and English language level, you can study this over one or two terms. Refer to page 57 for more information or visit oxfordinternational.com.

Meet our student, Gloria

Scan the QR code to meet Gloria, a Nigerian student studying a Master's at Dundee.

Core modules

The core modules for the IIM pathway are:

- English for Master's Preparation 1 and 2*
- Communication Skills
- Postgraduate Study in the UK: Literature Search and Annotated Bibliography

For more detailed information on your modules please visit oxfordinternational.com

* For the one-term IIM your core module is English for Master's Preparation 2 only.

Assessment

Postgraduate study requires lots of independent work and research and throughout your studies you will be continuously assessed to make sure you are on track. In addition to project work and tests, we will give feedback in person and in writing so that you know how you are doing, and how to improve.

Continuation

The first stage of your chosen degree will be studied at ICD. Once you have completed the IIM route you will continue on to your chosen postgraduate degree with the University of Dundee.

International Incorporated Master's (IIM)

Energy and Sustainability

The IIM in Energy and Sustainability is a one term or two-term course, leading on to a range of postgraduate degrees with The Centre for Energy, Petroleum and Mineral Law and Policy (CEPMLP) at the University of Dundee.

The Centre is committed to a programme for academic visitors, serving to build up an international network and global outreach and providing additional diversity in graduate teaching and research activities. You will delve into topics in greater depth than at the undergraduate level, extending and honing your expertise so that you are prepared for the demands of postgraduate degrees.

You can study the IIM in Energy and Sustainability over one or two terms depending on your academic qualifications and English language level.

Note: You can also study Energy and Sustainability over one term following the one term Business pathway.

Modules you will study

Alongside the IIM core modules you'll also study the following modules specific to the Energy and Sustainability route:

- Business Environment
- Management in Context
- Finance, Investment and Banking
- Quantitative Methods

How to apply

Applying to one of our pathways is easy, follow the QR code or link below to start your online application.

Apply online

oxfordinternational.com/admissions/apply

To complete your application with ease, you will need the following:

A copy of a valid passport

A copy of your original qualification certificate and transcripts

Certified translation (If applicable)

A personal statement

This should outline why an applicant has chosen the university, the selected course and future career plans

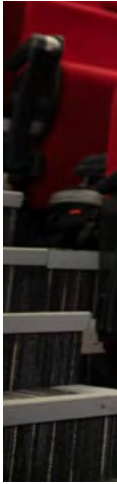

Any current and previous visas, CAS and copies of exit stamps. Please also include a copy of any previous visa refusal letters

A valid copy of IELTS or Pearson PTE if the score is at 5.5 or above

Only IELTS taken at UKVI approved centres can be used if the score is below 5.5 in any component. We accept a range of English language qualifications, for more information visit uod.ac.uk/icd

One of our student advisers will support you through the application process. Below is a step-by-step guide to what will happen once you submit your application:

Stage 1: Check qualifications

We will carefully review your application and check whether your academic qualifications and level of English language is suitable for entry to the chosen course.

Stage 2: Issue Conditional Offer

Assuming the application is successful; we will send you a formal offer of a place.

Stage 3: Issue Unconditional Offer

Once you've met all the conditions outlined in your Conditional Offer we will send you an Unconditional Offer.

Contact us

 **Email**
icd@dundee.ac.uk

Stage 4: Submit deposit

To accept a place on the course, you will need to make a deposit to confirm your offer. The amount of your deposit will be confirmed in the Offer Letter.

Stage 5: CAS issued

Upon receipt of the deposit we will request your pre-CAS documents. Once the pre-CAS documents have been received, we will issue you a Certificate of Acceptance for Studies (CAS) number.

Stage 6: Apply for visa

You will then need to apply for a visa.

Stage 7: Final payment

Advance payment of remaining fees will be required prior to arrival.

Stage 8: Accommodation

Before the start of the course we will send you details of your accommodation options (if required) and a welcome pack. We will also ask for details of your flight to the UK.

Stage 9: Welcome to the UK!

We can arrange for a taxi transfer upon your arrival at a UK airport (additional fees apply).
